

Control Roku via "Remote" - Home Assistant

I use this to simulate hitting the "enter" button after a few minutes to "skip adds" on YouTube.

<https://www.home-assistant.io/integrations/roku/>

```
service: remote.send_command
data:
  command: enter
entity_id: remote.freesoftwaresevers
```

Available Options:

```
back
backspace
channel_down
channel_up
down
enter
find_remote
forward
home
