

Create Array - Batch

ToDo: Automate Finding Array Size, for now you must set manually

```
@echo off
setlocal enabledelayedexpansion

::Set arrsize -1
set arrsize=3
set arrayline[0]=1A
set arrayline[1]=2A
set arrayline[2]=3A
set arrayline[3]=4A
set arrayline[4]=5A

::read it using a FOR /L statement
for /l %%n in (0,1,%arrsize%) do (
echo !arrayline[%%n]!
)
pause
```

Result:

```
1A
2A
3A
4A
Press any key to continue . . .
```
