

Store Can't Be Opened Using The Built-In Administrator Account - Windows 10

<https://superuser.com/questions/1025619/settings-cant-be-opened-using-the-built-in-administrator-account-in-windows-10/1302633#1302633>

You can create a Reg File with the following for easier integration/repetition.

```
Windows Registry Editor Version 5.00

[HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\Policies\System]
"FilterAdministratorToken"=dword:00000001

[HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\Policies\System\UIPI]
@="0x00000001(1)"
```

[RunAppsWithBuiltInAdmin.reg](#)
